WORK EXPERIENCE

01/07/2025 – present

Solutions Architect

Quantyca - Data@Core
Via A. Mauri 22, Monza, 20900

■ Energy (activities started in June 2024):

- * Architectural reference for Data Mesh adoption and implementation both from Data Product and Platform point of view (> 100 users on Data Mesh Experience Plane)
- * Design of implementation solution for data product discovery, observability and control port tailoring it to the current tech framework of the client (tech stack: ADLS Gen2, PostgreSQL, AKS, Grafana, Azure Purview, Great Expectations, Open Telemetry, Blindata, OpenDataMesh platform)
- * Leading the client in its Data Strategy implementation defining Vision and objectives on 3-5 years horizon

01/03/2023 – 30/06/2025

Data Architect

Quantyca - Data@Core
Via A. Mauri 22, Monza, 20900

- *Acting as technical reference for all the developers (total of 19 resources, distributed on the three clients) implementing solutions.*
- *Appliances:*
 - * *definition of guidelines for client's AWS data platform in a multi-supplier scenario (considering services like AWS S3, AWS Glue, AWS Athena, AWS IAM, AWS Redshift etc.)*
 - * *Technical guide (including PRs review) for four agile room to implement a set of dashboards accessed by up to 40 business users*
 - * *Lead of an assessment activity to help the client defining its data strategy*
 - * *Technical guide for CI/CD foundation on AWS platform (tech stack: AWS CodeCommit, AWS CodeBuild, AWS CodePipeline, AWS CloudFormation)*
 - * *Definition of Data Mesh principles adoption strategy*
 - * *Advisory for Data Governance and metadata management best practices*
- *Banking:*
 - * *Proponent and technical guide for the implementation of a Data Hub in the Save and Invest domain (tech stack: Confluent Kafka, Apache Spark, Apache Iceberg, IBM COS, Apache Airflow, Starburst)*
 - * *Foundation, evolution and maintenance of an MLOps platform that allows more than 100 data scientists to autonomously develop their own advanced analytics models (tech stack: Docker, Kubernetes, Jupyterhub, Gitlab, MLflow, Minio, ELK, et. al.)*
 - * *Lead of an assessment activity to help the client defining its data strategy*
 - * *Technical reference for "classic" pipeline development flow: from data extraction to data visualization (tech stack: IBM DataStage, Teradata, Power BI)*
- *tutoring of junior DEs and monitoring their growth. Definition of best practices for development, release, etc.*

01/02/2022 – 01/02/2023

Senior Data Engineer & Team Leader

Quantyca - Data@Core

- *Banking: leading a team of seven people working on three projects:*
 - * *Foundation of an MLOps platform that allows more than 100 data scientists to autonomously develop their own advanced analytics models (tech stack: Docker, Kubernetes, Jupyterhub, Gitlab, MLflow, Minio, ELK, et. al.)*
 - * *Web application development (tech stack: React, Springboot)*
 - * *Migration of a machine learning blackbox solution to an open source / open code solution that let the bank to save 45 FTEs re-allocating them to other activities*
- *Sport: Datalake creation on AWS with services like AWS S3, AWS Glue, AWS Athena, AWS Step Functions*

01/07/2021 – 31/01/2022

Data Engineer

Quantyca - Data@Core

- *Travel: Data Governance process setup and implementation (Data Catalog automatic implementation, Business Glossary)*
- *Retail:*
 - * *Oracle off-loading to Vertica data warehouse passing through Confluent Kafka as Data Bus*
 - * *Confluent Kafka producers and consumers development both using Kafka Connect and custom implementations*
 - * *ETL/ELT data pipeline development (tech stack: Talend DI, Oracle, Vertica, Confluent Kafka)*
 - * *Data warehouse modeling using star schema model*

02/12/2019 – 30/06/2021

Junior Data Engineer

Quantlyca - Data@Core

- *SaaS Platform: fullstack development (tech stack: SpringBoot, React)*

16/01/19 – 29/11/19

Research fellow

IoTLab, DEIB, Politecnico di Milano, Bovisa
Via Giovanni Durando 39, Milano, 20158

EDUCATION AND TRAINING

2023

CKA: Certified Kubernetes Administrator

The Linux Foundation

2021

Building Modern Python Applications on AWS

Coursera, e-Learning platform

2016–Dec 2018

Master Degree in Telecommunications engineering - 110/110 cum laude

Politecnico di Milano, Milano, Italy

2013 – 2016

Bachelor in Telecommunications engineering - 103/110

Politecnico di Milano, Milano, Italy

PERSONAL SKILLS

Mother tongue(s)

Italian

Other language(s)

English

UNDERSTANDING		SPEAKING		WRITING
Listening	Reading	Spoken interaction	Spoken production	
C1	C1	C1	C1	C1

Levels: A1/A2: Basic user - B1/B2: Independent user - C1/C2: Proficient user
Common European Framework of Reference (CEF) level

Languages description and certifications

- **2016** - TOEIC Certification result: 870/1000 (C1).
- **2019** - EF Standard English Test with result 73/100 (C2).

Communication skills

- Ability to work in teams, great communication skills, open to others' opinions;

Organisational / managerial skills

- Self-time organization skills, precise on commitment and deliveries;
- resources management acquired leading several projects co-operating with different Project Managers (up to 20 resources at the same time)

Computer skills

- *generic* - information processing, problem solving
- *OS* - Windows, Ubuntu, Rhel
- *Coding* - C, Java, JavaScript, React.js, Matlab, Python, SQL, XML, Arduino, Latex, Spring-Boot
- *Tools, Cloud providers and techs* - AWS, Azure, Talend Data Ingration and ESB, IBM Datastage, Confluent Kafka, ELK, Kubernetes, Docker, MinIO, Grafana, Prometheus, Vertica, Oracle, PostgreSQL, SQL Server, OpenDataMesh

Interests

- Books, Movies, Basketball, Soccer, Manga

Driving licence

A, B

ADDITIONAL INFORMATION

Publications

■ Master Thesis

- * Title: A multi-sensor approach to people counting and flow estimation in Smart Campus
- * Role: author

■ Report

- * Title: L'evoluzione dell'Internet of Things, i principali sviluppi tecnologici
- * Role: co-author
- * Link: [report 24/05/2019](#);

■ Blogpost

- * Title: Govern your data: it's a thought job, but someone has to do it!
- * Role: author
- * Link: [medium blogpost](#);

Collaboration

■ Wanter

- * When: 04/2022
- * [Wanter.it](#) is a website developed by [ValoreD](#) to help future generations orient themselves in the work world. I have been asked to give my contribution with an interview about the role of the [Data Engineer](#)
